STANDING ORDERS

Standing Orders are the written rules of a local council. They are used to confirm a council's internal organisational, administrative and procurement procedures and procedural matters for meetings. Start your reading with the bits in bold, those are the bits the council must do. You don't need to understand them straight away, as you gain experience they will start to make more sense.

FINANCIAL REGULATIONS

The financial regulations are an essential tool for local councils of all sizes. They set out the framework within which the council ensures responsible and sustainable management of the council's finances. Every council must have financial regulations[1]. Again, you don't need to understand them straight away, as you gain experience they will start to make more sense.
